CONTENTS OF VOLUME 19

Number 1

P. MACKINNON, F. FUETEN and P.-Y. F. ROBIN — 1 A fracture model for quartz ribbons in straight gneisses

G. TOURIGNY and A. TREMBLAY — 15 Origin and incremental evolution of brittle/ductile shear zones in granitic rocks: natural examples from the Southern Abitibi Belt, Canada

B. TIKOFF and D. GREENE — 29 Stretching lineations in transpressional shear zones: an example from the Sierra Nevada Batholith, California

C. FERNANDEZ, R. CASILLAS, A. AHIJADO, V. PERELLO and A. HERNANDEZ-PACHECO — 41 Shear zones as a result of intraplate tectonics in oceanic crust: the example of the Basal Complex of Fuerteventura (Canary Islands)

S. HANMER, F. MENGEL, J. CONNELLY and J. VAN GOOL — 59 Significance of crustal-scale shear zones and synkinematic mafic dykes in the Nagssugtoqidian orogen, SW Greenland: a re-examination

R. J. MCDOWELL — 77 Evidence for synchronous thin-skinned and basement deformation in the Cordilleran fold-thrust belt: the Tendoy Mountains, southwestern Montana

R. I. HIGGINS and L. B. HARRIS — 89 The effect of cover composition on extensional faulting above re-activated basement faults: results from analogue modelling

M. REITER — 99 A note comparing parameters controlling low-angle normal and thrust movement

V. SRIVASTAVA and V. K. GAIROLA — 107 Classification of multilayered folds based on harmonic analysis: example from central India

C. W. PASSCHIER — 113 The fabric attractor

Brevia

T. H. WILSON — 129 Fractal strain distribution and its implications for cross-section balancing: further discussion

133 Book Reviews

I International Newsletter 13: January 1997

Number 2

137 Editorial

T. M. KUSKY, D. C. BRADLEY and P. HAEUSSLER — 139 Progressive deformation of the Chugach accretionary complex, Alaska, during a paleogene ridge–trench encounter

M. DOBLAS, V. MAHECHA, M. HOYOS and J. LÓPEZ-RUIZ — 159 Slickenside and fault surface kinematic indicators on active normal faults of the Alpine Betic cordilleras, Granada, southern Spain

M. R. GROSS, G. GUTIÉRREZ-ALONSO, T. BAI, M. A. WACKER, K. B. COLLINSWORTH and R. J. BEHL — 171 Influence of mechanical stratigraphy and kinematics on fault scaling relations

E. MERCIER, F. OUTTANI and D. FRIZON DE LAMOTTE — 185 Late-stage evolution of fault-propagation folds: principles and example

N. G. EVANS, G. GLEIZES, D. LEBLANC and J.-L. BOUCHEZ — 195 Hercynian tectonics in the Pyrenees: a new view based on structural observations around the Bassiès granite pluton

T. K. FOWLER JR and S. R. PATERSON — 209 Timing and nature of magmatic fabrics from structural relations around stoped blocks

S. J. COVEY-CRUMP — 225 The high temperature static recovery and recrystallization behaviour of cold-worked Carrara marble

Numbers 3–4

Special Issue: Fault-Related Folding

v Preface

R. MARRETT and P. A. BENTHAM — 243 Geometric analysis of hybrid fault-propagation/detachment folds

C. A. HEDLUND — 249 Fault-propagation, ductile strain, and displacement–distance relationships

D. A. McCONNELL, S. A. KATTENHORN and L. M. BENNER — 257 Distribution of fault slip in outcrop-scale fault-related folds, Appalachian Mountains

J. CONTRERAS and M. SUTER — 269 A kinematic model for the formation of duplex systems with a perfectly planar roof thrust

D. A. MEDWEDEFF and J. SUPPE — 279 Multibend fault-bend folding

N. B. WOODWARD — 293 Low-amplitude evolution of break-thrust folding

K. L. THORBJORNSEN and W. M. DUNNE — 303 Origin of a thrust-related fold: geometric vs kinematic tests

E. A. ERSLEV and K. R. MAYBORN — 321 Multiple geometries and modes of fault-propagation folding in the Canadian thrust belt

T. X. HOMZA and W. K. WALLACE — 337 Detachment folds with fixed hinges and variable detachment depth, northeastern Brooks Range, Alaska

D. J. ANASTASIO, D. M. FISHER, T. A. MESSINA and J. E. HOLL — 355 Kinematics of décollement folding in the Lost River Range, Idaho

J. POBLET, K. McCLAY, F. STORTI and J. A. MUÑOZ — 369 Geometries of syntectonic sediments associated with single-layer detachment folds

K. MUELLER and J. SUPPE — 383 Growth of Wheeler Ridge anticline, California: geomorphic evidence for fault-bend folding behaviour during earthquakes

K. MUELLER and P. TALLING — 397 Geomorphic evidence for tear faults accommodating lateral propagation of an active fault-bend fold, Wheeler Ridge, California

M. FORD, E. A. WILLIAMS, A. ARTONI, J. VERGÉS and S. HARDY 413 Progressive evolution of a fault-related fold pair from growth strata geometries, Sant Llorenç de Morunys, SE Pyrenees

J. SUPPE, F. SÁBAT, J. A. MUÑOZ, J. POBLET, E. ROCA and J. VERGÉS 443 Bed-by-bed fold growth by kink-band migration: Sant Llorenç de Morunys, eastern Pyrenees

M. G. ROWAN 463 Three-dimensional geometry and evolution of a segmented detachment fold, Mississippi Fan foldbelt, Gulf of Mexico

A. J. MEIGS 481 Sequential development of selected Pyrenean thrust faults

G. MITRA and A. J. SUSSMAN 503 Structural evolution of connecting splay duplexes and their implications for critical taper: an example based on geometry and kinematics of the Canyon Range culmination, Sevier Belt, central Utah

E. TAVARNELLI 523 Structural evolution of a foreland fold-and-thrust belt: the Umbria–Marche Apennines, Italy

C. A. J. WIBBERLEY 535 Three-dimensional geometry, strain rates and basement deformation mechanisms of thrust-bend folding

L. M. STRAYER and P. J. HUDLESTON 551 Numerical modeling of fold initiation at thrust ramps

M. L. COOKE and D. D. POLLARD 567 Bedding-plane slip in initial stages of fault-related folding

F. STORTI, F. SALVINI and K. McCLAY 583 Fault-related folding in sandbox analogue models of thrust wedges

Number 5

S. JI, P. ZHAO and K. SARUWATARI 603 Fracturing of garnet crystals in anisotropic metamorphic rocks during uplift

B. ÁBALOS 621 Omphacite fabric variation in the Cabo Ortegal eclogite (NW Spain): relationships with strain symmetry during high-pressure deformation

G. ZULAUF and S. HELFERICH 639 Strain and strain rate in a synkinematic trondhjemitic dike: evidence for melt-induced strain softening during shearing (Bohemian Massif, Czech Republic)

J. R. HENDERSON 653 Development of a chevron cleavage pattern and porphyroblast rotation in graded metaturbidites, Slave structural province, Northwest Territories, Canada

W. M. DUNNE and A. J. CALDANARO, JR 663 Evolution of solution structures in a deformed quartz arenite: geometric changes related to permeability changes

J. ANGELIER, F. BERGERAT, O. DAUTEUIL and T. VILLEMIN 673 Effective tension–shear relationships in extensional fissure swarms, axial rift zone of northeastern Iceland

C. E. R. LINE, D. B. SNYDER and R. W. HOBBS 687 The sampling of fault populations in dolerite sills of Central Sweden and implications for resolution of seismic data

C. HOMBERG, J. C. HU, J. ANGELIER, F. BERGERAT and O. LACOMBE 703 Characterization of stress perturbations near major fault zones: insights from 2-D distinct-element numerical modelling and field studies (Jura mountains)

R. A. MASON 719 Structure of the Alice anticline, Papua New Guinea: serial balanced cross-sections and their restoration

M. LÉGER, M. THIBAUT, J.-P. GRATIER and J.-M. MORVAN 735 A least-squares method for multisurface unfolding

Brevia

J. ZHANG and Y. ZHENG 745 Polar Mohr constructions for strain analysis in general shear zones

749 Book Reviews

i Errata

Number 6

A. R. MOUSTAFA 755 Controls on the development and evolution of transfer zones: the influence of basement structure and sedimentary thickness in the Suez rift and Red Sea

P. S. SIMONY and S. D. CARR 769 Large lateral ramps in the Eocene Valkyr shear zone: extensional ductile faulting controlled by plutonism in southern British Columbia

L. A. KENNEDY and J. M. LOGAN 785 The role of veining and dissolution in the evolution of fine-grained mylonites: the McConnell thrust, Alberta

T. J. FOWLER and C. N. WINSOR 799 Characteristics and occurrence of bedding-parallel slip surfaces and laminated veins in chevron folds from the Bendigo–Castlemaine goldfields: implications for flexural-slip folding

M. ZHAO and R. D. JACOBI 817 Formation of regional cross-fold joints in the northern Appalachian Plateau

S. J. MARTEL 835 Effects of cohesive zones on small faults and implications for secondary fracturing and fault trace geometry

C. J. ARCHANJO and J.-L. BOUCHEZ 849 Magnetic fabrics and microstructures of the post-collisional aegirine–augite syenite Triunfo pluton, northeast Brazil

R. HEILBRONNER and M. HERWEGH 861 Time slicing, an image processing technique to visualize the temporal development of fabrics

Y. ZHANG and C. J. L. WILSON 875 Lattice rotation in polycrystalline aggregates and single crystals with one slip system: a numerical and experimental approach

Brevia

R. J. H. JOLLY and D. J. SANDERSON 887 A Mohr circle construction for the opening of a pre-existing fracture

S. HARDY 893 A velocity description of constant-thickness fault-propagation folding

Number 7

S. C. WILLIAMS-STROUD and J. PAUL 897 Initiation and growth of gypsum piercement structures in the Zechstein Basin

D. F. BRUHN and M. CASEY 909 Texture development in experimentally deformed two-phase aggregates of calcite and anhydrite

G. C. OHLMACHER and A. AYDIN 927 Mechanics of vein, fault and solution surface formation in the Appalachian Valley and Ridge, northeastern Tennessee, U.S.A.: implications for fault friction, state of stress and fluid pressure

G. CELLO 945 Fractal analysis of a Quaternary fault array in the central Apennines, Italy

A. ESCHER and C. BEAUMONT 955 Formation, burial and exhumation of basement nappes at crustal scale: a geometric model based on the Western Swiss–Italian Alps

J. WICKHAM and G. MOECKEL 975 Restoration of structural cross-sections

H. FOSSEN and B. TIKOFF 987 Forward modeling of non-steady-state deformations and the 'minimum strain path'

S. H. TREAGUS and R. J. LISLE 997 Do principal surfaces of stress and strain always exist?

Brevia

O. MERLE and D. GAPAIS 1011 Strains within thrust-wrench zones

1015 Book Reviews

I Corrigendum

III Erratum

V International Newsletter 14: July 1997

Number 8

J. R. PRAY, D. T. SECOR, JR, P. E. SACKS and H. D. MAHER, JR 1023 Rotation of fabric elements in convergent shear zones, with examples from the southern Appalachians

C. E. SUH and S. S. DADA 1037 Fault rocks and differential reactivity of minerals in the Kanawa Violaine uraniferous vein, NE Nigeria

M. DOBLAS, D. FAULKNER, V. MAHECHA, A. APARICIO, J. LÓPEZ-RUIZ and M. HOYOS 1045 Morphologically ductile criteria for the sense of movement on slickensides from an extensional detachment fault in southern Spain

J.-M. AZAÑÓN, A. CRESPO-BLANC and V. GARCÍA-DUEÑAS 1055 Continental collision, crustal thinning and nappe forming during the pre-Miocene evolution of the Alpujarride Complex (Alboran Domain, Betics)

S. BERGMAN and H. SJÖSTRÖM 1073 Accretion and lateral extension in an orogenic wedge: evidence from a segment of the Seve–Köli terrane boundary, central Scandinavian Caledonides

T. FLÖTTMANN and P. JAMES 1093 Influence of basin architecture on the style of inversion and fold–thrust belt tectonics—the southern Adelaide Fold–Thrust Belt, South Australia

C. AUBOURG, D. FRIZON DE LAMOTTE, A. POISSON and E. MERCIER 1111 Magnetic fabric and oblique ramp-related folding: A case study from the Western Taurus (Turkey)

B. WORLEY, R. POWELL and C. J. L. WILSON 1121 Crenulation cleavage formation: Evolving diffusion, deformation and equilibration mechanisms with increasing metamorphic grade

I Erratum

Number 9

A. AZOR, J. FERNANDO SIMANCAS, I. EXPOSITO, F. GONZALEZ LODEIRO and D. J. MARTINEZ POYATOS — 1137 Deformation of garnets in a low-grade shear zone

L. CRISPINI and G. CAPPONI — 1149 Quartz fabric and strain partitioning in sheath folds: an example from the Voltri Group (Western Alps, Italy)

P. P. CHRISTIANSEN and D. D. POLLARD — 1159 Nucleation, growth and structural development of mylonitic shear zones in granitic rock

J. V. A. KELLER, S. H. HALL and K. R. McCLAY — 1173 Shear fracture pattern and microstructural evolution in transpressional fault zones from field and laboratory studies

B. J. DUTTON — 1189 Finite strains in transpression zones with no boundary slip

R. R. JONES, R. E. HOLDSWORTH, and W. BAILEY — 1201 Lateral extrusion in transpression zones: the importance of boundary conditions

T. MAUDUIT, G. GUERIN, J.-P. BRUN and H. LECANU — 1219 Raft tectonics: the effects of basal slope angle and sedimentation rate on progressive extension

L. K. STEWART — 1231 Experimental investigation of the effects of fluid heterogeneity upon the motion of rigid ellipsoidal inclusions during bulk inhomogeneous shortening

Brevia

C. H. COSTA, J. C. CESCO and R. J. MORÁN — 1245 A simple graphical method for estimating the components of the fault-slip vector

J. OUALI and E. MERCIER — 1249 The Neogene structural evolution of the western margin of the Pelagian Platform, central Tunisia: Discussion

J. ANDERSON — 1253 The Neogene structural evolution of the western margin of the Pelagian Platform, central Tunisia: Reply

1255 Book Reviews

Number 10

N. E. ODLING — 1257 Scaling and connectivity of joint systems in sandstones from western Norway

C. PASCAL, J. ANGELIER, M.-C. CACAS and P. L. HANCOCK — 1273 Distribution of joints: probabilistic modelling and case study near Cardiff (Wales, U.K.)

R. B. FÆRSETH, B.-E. KNUDSEN, T. LILJEDAHL, P. S. MIDBØE and B. SØDERSTRØM — 1285 Oblique rifting and sequential faulting in the Jurassic development of the northern North Sea

G. GUTIÉRREZ-ALONSO and M. R. GROSS — 1303 Geometry of inverted faults and related folds in the Monterey Formation: implications for the structural evolution of the southern Santa Maria basin, California

R. J. NORRIS and A. F. COOPER — 1323 Erosional control on the structural evolution of a transpressional thrust complex on the Alpine Fault, New Zealand

P. H. G. M. DIRKS, J. S. ZHANG and C. W. PASSCHIER — 1343 Exhumation of high-pressure granulites and the role of lower crustal advection in the North China Craton near Datong

Number 11

G. XU 1359 Fluid inclusions in crack–seal veins at Dugald River, Mount Isa Inlier: implications for palaeostress states and deformation conditions during orogenesis

J. V. SMITH 1369 Initiation of convergent extension fracture vein arrays by displacement of discontinuous fault segments

D. BAHAT 1375 Mechanisms of dilatant en échelon crack formation in bedded chalk

J. P. EVANS, C. B. FORSTER and J. V. GODDARD 1393 Permeability of fault-related rocks, and implications for hydraulic structure of fault zones

D. C. TANNER and J. H. BEHRMANN 1405 Study of strain and partial-melt transfer in a banded migmatite

Brevia

L. V. DIMIERI 1419 Tectonic wedge geometry at Bardas Blancas, southern Andes (36°S), Argentina

R. CHEN and L. J. LORIG 1423 Numerical modelling of the effects of fault slip on fluid flow around extensional faults: Discussion

X. ZHANG and D. J. SANDERSON 1427 Numerical modelling of the effects of fault slip on fluid flow around extensional faults: Reply

D. JIANG 1429 Fracturing of garnet crystals in anisotropic metamorphic rocks during uplift: Discussion

S. JI 1433 Fracturing of garnet crystals in anisotropic metamorphic rocks during uplift: Reply
